:P hello my name is dianne I had my band done August 2007 I have found were I had it done very helpful and the money I paid was so worth it.

But what happens now? I have lost 10stone and got to weight and size I want to be yet the weight carries on coming off faster than I can cope.

I can afford the after care package and a band de fill costs £150 per time so I am in a situatiol never thought I would ever find myself in?

I thought I would ask you all what you might have as an idea to help me.

many thanks Dianne
